

MOVE OVER

The End of Road Rage!

See video at www.mosd.com

- All states require slow drivers to move over to the right and not impede faster drivers.
- Blocked fast drivers often tailgate or do “in and out” lane switching to get past the slow drivers.
- Either one of these ill-advised remedies can result in road rage, accidents, injuries or deaths.
- Our goal is to educate slow drivers and provide fast drivers with technology to record violations.

Show / Story Ideas:

- Do Slow Drivers Drive You Crazy?
- Disturbing Results of Road Rage.
- #1 Solution to Make Highways Safer and More Efficient.
- Why Road Rage is So Common.
- Smart Phone App to Eliminate Slow Drivers in the Fast Lane.

Michaela Burke and her past husband, **Dr. Bert Burke**, invented and hold 18 patents including the merchant and bank gift cards, the rounding up of debit transactions (BOA / Wells Fargo, etc.), system to stop de-icers from destroying concrete and steel on highway bridges, elimination of escheatment on gift card sales, etc. Their newest and “best yet” patent solves the problem of slow drivers in the fast lane!

TV and media experience:

Channel 8 (Tampa), NHK-TV & Radio (Tokyo), WSJ, Herald Tribune, Chronicle, Asbury Park Press
